

Welcome to OHCEngage+

Your Gateway to a Connected Organization

By becoming one of our OHCEngage+ moderators, you gain access to dozens of tools to keep your community on the same page, no matter where in the world you are.

Embrace a new way to engage and experience connection like never before.

Universal Features

Welcome Checklist

This temporary pop-up will help guide you through the OHCEngage platform so you can learn the ropes and feel confident in your ability to navigate.

OHC Home

This space is always added when you first join OHCEngage. This is where you'll find the latest and greatest OHC news. You can also connect with the wider web of opportunities we provide.

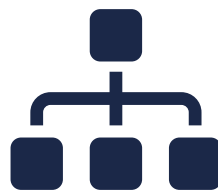

Feed

View a compiled feed of all the spaces you've joined. This also contains the Featured Feed, where moderators of each space can pin important posts, and you'll see the ones relevant to you.

Discover

Discover featured, up-and-coming, and relevant to you posts from all spaces that you have joined.

Spaces & Collections

As you explore the platform, you'll find new and interesting spaces and collections for various topics. Feel free to join or leave these as you see fit.

Chats & PMS

Users can PM one another and create group chats separate from any spaces or collections. You can disable direct messages in Account Preferences.

Make Your Space Your Own

Optional Features for Your OHCEngage+ Space

Chat

An open group chat for all members of a given space. Get instant feedback and communicate effectively.

Events

Create a calendar of events hosted by your organization. Events using OHCEngage's native live or webinar features are supported, as well as external events.

Members

A page for your members to see who else is in your space. Sort by location or explore those with similar interests.

Highlighted Hashtag List

This is a great tool for organizing content in your space. Invite your members to use specific tags, and search from the established list.

Single Event

Feature a single event hosted on OHCEngage and make the details easy to find.

Feed

Members can post content in the feed. This includes quick posts and media. Hosts and mods have additional formats, including polls, questions, and articles.

Discovery

This is a Space-specific version of the universal discovery page. Feature content intentionally, or let the algorithm show off what's working.

Table of Contents OR Courses

Create a knowledge base for your members. This is a great place to put content that you'll need easy access to, or a place to develop courses/quizzes for the members of your space.

Page

Typically used as a landing or welcome page for your space. This is a single standalone article, compatible with embeds and rich text.

Customization Options:

- Name
- Banner
- Logo
- About Image
- Tagline
- Description
- Associated Website
- Location
- Colors
- Privacy Levels
- Host, Moderator, and Member Labels
